Methodology: Rankings are based on partner head count data from 300 U.S.-based law firms, including 198 of the largest 200 firms in the country. Data is as of July 1. Partners counted for a practice group in the rankings had to spend at least 75 percent of their time on matters related to that practice. For partners who split their time between two different practice groups, firms were allowed to count those partners as '0.5' in each of the two practices.

Firms marked with an asterisk did not submit or confirm practice group numbers. For these firms, Law360 estimated partner head counts using public data.
